

Mount Isa Athletics

PRESS RELEASE

10 August 2014

Local artist Nancy Wing is the type of person that paints for the pure enjoyment of it. Nancy has never felt the need to sell her works but when she and son Daniel became involved with the Mount Isa Athletics Club she wanted to find a way to give something back to the club. She then set about creating a masterpiece, a moment frozen in time at Sunset Park. Once completed, Miss Nancy, as she is affectionately known as at the club, then presented the art work to Athletics club President David Scott as a donation to aid fundraising.

“The artwork is too good and too valuable to simply raffle off so we have decided to put it up for sale with the proceeds to come back to the club” Mr Scott said “It’s a great piece that has been done from the perspective of someone sitting under the shed awning looking out across the park”

To sweeten the deal the magnificent staff at Frame World Mount Isa has donated the picture frame which encompasses this beautiful artwork.

The piece which has been independently valued at around \$2000 is currently on display at Paint & Décor for viewing and at a later date will be hung at The Potters Club. Anyone interested in owning this fabulous art work of an authentic piece of Mount Isa as it is in 2014 are invited to please make an offer to David at Paint & Décor at their earliest convenience.
